Engineering Excellence & Verifiable Performance

Progenesis Company combines rigorous civil engineering oversight with specialized trade execution to deliver high-complexity contracting and industrial projects on schedule and within budget.

Our Corporate Mission

Deliver turnkey contracting, structural engineering, and precision fit-out that surpass consultant benchmarks, fully enforce HSEQ protocols, and guarantee zero-defect execution for tier-1 developers.

Strategic Vision

Remain Egypt's most reliable civil engineering contractor for major developers, multinational facility managers, and industrial plants, renowned for technical rigor and uncompromising speed.

Engineering Principles

Full-time site engineering presence, rigorous compliance with ASTM and Egyptian Building Codes, proactive risk assessment, and transparent client reporting from day one to handover.

Lab & Materials Engineer (Site Materials Testing)

2024 — PRESENT

Ardaman Senior — Site Quality & Geotechnical Testing

Supervising soil and concrete testing per ASTM standards and the Egyptian Code. Enforcing strict quality control protocols, testing fresh/hardened concrete, compaction density checks, and delivering technical reports for major national infrastructure.

Civil & Site Engineer (Commercial Fit-Out & Modifications)

2022 — 2024

Brilliance for Constructions & General Supplies

Directing high-profile commercial modifications at Mall of Egypt (Magic Planet complete MEP and gypsum ceiling restoration, Snow Cave automated sliding door, Enova administrative offices partitions & Securit glass). Managing site teams, submittals, budgets, and consultant approvals.

DEDICATED IN-HOUSE SITE EXECUTION TEAMS

Electrical Team • Formwork Team • Carpentry Works • Steel Fixing Team • Plumbing & Drainage • Gypsum Board • Finishing

FULL-TIME SITE OVERSIGHT

Health, Safety & Quality Governance

Operating in strict compliance with Enova Facilities Management Standard COE-HSE-PRO-008, ASTM International, and Egyptian Construction Safety Codes.

SUPERVISION ASSURANCE

Standard: COE-HSE-PRO-008 §16

Full-Time Competent Person On-Site

In strict compliance with Section 16 of Enova standard COE-HSE-PRO-008, Progenesis mandates that a registered, trained Site Engineer (Eng. Mina Helmy) is present on-site during all active work operations to enforce risk controls and maintain structural fidelity.

- ✓ **Continuous Risk Oversight:** Direct monitoring of high-hazard fit-out & civil trades
- ✓ **Permit-to-Work (PTW):** Strict daily verification of Hot Work, Working at Height & Confined Spaces
- ✓ **Incident Prevention:** Immediate correction of unsafe acts or substandard gear

RISK MITIGATION

Doc: PRG-MS-001 / PRG-RA-001

Dynamic Risk Assessment (RAMS)

Every deployment begins with a project-specific Method Statement (PRG-MS-001) and Hazard Identification & Risk Assessment (HIRA). Scaffolding, crane lifting, and electrical tie-ins are systematically quantified and mitigated before any tool deployment.

- ✓ **Daily Pre-Shift Briefings:** Documented toolbox talks (TBT) logged for all site crews
- ✓ **PPE & Fall Protection:** 100% enforcement of EN/ANSI safety harnesses, hardhats & footwear
- ✓ **Tool & Rigging Checks:** Daily inspections of scaffolding, power tools, and electrical boards

QUALITY & COMPETENCY

Doc: PRG-TRN-001 / ASTM QC

Competency Matrix & Quality Assurance

Execution is reserved exclusively for verified, skilled tradesmen. We maintain trade competency records (PRG-TRN-001) and enforce ASTM sampling protocols (C39/C143) to achieve zero punch-list defects and seamless consultant sign-offs.

- ✓ **Laser Optical Verification:** Optical leveling on all commercial floorings and slabs
- ✓ **Consultant IR Approvals:** Formal inspection requests (IR/WIR) cleared with RMC, Enova & MAF
- ✓ **Clean Site Handover:** 100% waste clearance, debris removal, and pristine turn-in

0 LTI

Zero Lost-Time Incidents

Flawless safety record maintained across high-traffic retail malls and active industrial plants.

100%

PPE & Tool Compliance

Strict mandatory enforcement of CE/ANSI safety gear, calibrated measuring tools, and tagged scaffolds.

DAILY

Toolbox Talks (TBT)

Pre-shift safety hazard briefings and task checklists logged for every workforce crew on-site.

1st PASS

Consultant Approvals

Verified inspection clearances with premier consultants: Raafat Miller Consulting (RMC), Enova, and MAF.

Core Business Units & Capabilities Matrix

Integrated solutions spanning commercial turnkey fit-out, heavy civil engineering, specialized industrial flooring, and structural steel works.

INTERIORS

Commercial Fit-Out & Turnkey Interiors

Turnkey commercial and retail interior works for shopping malls, retail flagship stores, and banking headquarters with zero snag tolerance.

CORE TRADE CAPABILITIES

- ✓ **Acoustic Drywall:** Knauf gypsum board partitions
- ✓ **Securit Glass:** 10–12mm frameless glass walls
- ✓ **Ceilings:** Hunter Douglas tiles & baffle grids
- ✓ **MEP Integration:** HVAC diffusers & fire alarms
- ✓ **Special Doors:** Sliding & certified fire-rated steel
- ✓ **Façades:** 4mm aluminum composite cladding (870m²+)

Client References: **Mall of Egypt • CIB • Enova**

STRUCTURAL

General Construction & Civil Works

Heavy structural casting and infrastructure development executed under Egyptian Structural Codes and ASTM materials sampling standards.

CORE TRADE CAPABILITIES

- ✓ **Reinforced Concrete:** Foundations, tie beams & slabs
- ✓ **Engineered Formwork:** Heavy timber & steel props
- ✓ **Deep Basements:** Raft casting, retaining walls & dowels
- ✓ **Excavation & Grading:** Loaders, excavators & shoring
- ✓ **Waterproofing:** SBS torch-applied & crystalline
- ✓ **QA Testing:** ASTM C39 compressive cube crush testing

Client References: **Al-Fekry • October Villas • M²**

FLOORING

Specialized Industrial & Laser Flooring

High-tolerance commercial and industrial floor finishes engineered for extreme mechanical abrasion, chemical resistance, and heavy wheel traffic.

CORE TRADE CAPABILITIES

- ✓ **Helicopter Concrete:** Power-troweled mirror smooth finish
- ✓ **Laser Porcelain:** 1,700m²+ laser-guided tile alignment
- ✓ **Joint Cutting:** Expansion saw-cuts & elastomeric seals
- ✓ **Heavy Interlock:** 6cm & 8cm paved yards, curbstones
- ✓ **Pharma Finishes:** Hygienic coving & self-leveling epoxy
- ✓ **Floor Hardening:** Quartz & metallic dry-shake hardeners

Client References: **Chemipharm • 31 West • Dabaa**

STEEL & 3D

Steel Structures & Advanced 3D Engineering

End-to-end design, computerized structural modeling, shop detailing, certified fabrication, and crane erection of complex architectural frames.

CORE TRADE CAPABILITIES

- ✓ **Heavy Trusses:** Long-span roof structures & space frames
- ✓ **Monumental Gates:** Architectural steel entrance portals
- ✓ **Sandwich Panels:** 40mm polyurethane insulated envelopes
- ✓ **Mobilization:** Site warehouses, staging & crane setups
- ✓ **Structural FEA:** SAP2000, ETABS & CSI Column designs
- ✓ **Crane Rigging:** Certified riggers, lift plans & safety taglines

Client References: **Palm Hills • New Capital • Badr**

Commercial Fit-Out I: **Mall of Egypt Entertainment Hub**

Major modifications and technical installations executed for Majid Al Futtaim within Egypt's premier retail destination.

★ Client: Majid Al Futtaim / Brilliance

COMMERCIAL FIT-OUT

Magic Planet — Ceiling & Full MEP Replacement

Complete demolition of existing defective gypsum board ceilings and precision reconstruction across a high-traffic entertainment venue. Included the complete restoration and re-routing of mechanical ducting, electrical trunking, and fire-suppression systems with 100% safety compliance.

★ Client: Ski Egypt / Majid Al Futtaim

SPECIALIZED DOORS

Ski Area Entrance — Automated Thermal Sliding Door

Fabrication and precision installation of a heavy-duty commercial automatic sliding door system at the main visitor threshold of the indoor ski facility. Engineered to withstand high cycle frequencies and extreme thermal differentials between the sub-zero snow cavern and the mall concourse.

LOCATION

Mall of Egypt, 6th of October

SCOPE

Demolition, Gypsum & MEP Systems

DELIVERY

Flawless Consultant Handover

LOCATION

Ski Egypt, Mall of Egypt

SCOPE

Thermal Automated Sliding Door

PERFORMANCE

High-Cycle & Thermal Retention

Commercial Fit-Out II: Corporate Offices & Glass Works

Turnkey administrative office construction and architectural safety glass installations.

★ Client: Enova Facilities Management

OFFICE FIT-OUT

Enova Administration Offices — Mall of Egypt

Turnkey construction and modifications for the regional administrative headquarters of Enova. Built using high-performance acoustic gypsum board partitions, soundproof ceilings, frameless Securit tempered glass partition systems, and integrated electrical conduits.

LOCATION

Mall of Egypt Administration

SCOPE

Acoustic Gypsum & Securit Glass

FINISH

Turnkey Executive Standards

★ Client: VOX Cinemas & Magic Planet

SAFETY GLASS & MIRRORS

VOX Cinema & Magic Planet — Tempered Glass Works

Custom fabrication and mounting of 10mm/12mm heavy-duty Securit safety glass, architectural mirrors, and framing systems across public lobbies and entertainment corridors, engineered to withstand heavy footfall while maintaining pristine aesthetics.

LOCATION

Mall of Egypt, Giza

SCOPE

Tempered Glass & Architectural Mirrors

SAFETY

100% Impact & Safety Verified

Commercial Fit-Out II: **Façades & Banking Modifications**

Execution of architectural composite cladding façades and high-security banking branch fit-outs.

★ Commercial Development Project

870+ M² FAÇADE

Architectural Composite Cladding Façade (870+ m²)

Turnkey fabrication and erection of an architectural aluminum composite cladding façade spanning over 870 m². Delivered with precision laser alignment, custom steel subframing, and weatherproofing seals — successfully handed over ahead of schedule with zero defect remarks.

TOTAL AREA
870+ m² Cladding

TIMELINE
Handed Over Ahead of Schedule

QUALITY
Zero Defect Handover

★ Client: CIB (Commercial International Bank)

BANKING FIT-OUT

CIB Bank Branches Modification (Abbas Al Akkad & Taiba)

Execution of sensitive security modifications across major CIB branches. Included installation of Securit glass security partitions, heavy-duty teller boundaries, acoustic ceiling tiles, fire-rated gypsum board closures, and integrated branch electrical routing under strict confidentiality.

BRANCHES
Abbas Al Akkad & Taiba Branches

SCOPE
Securit Glass, Security & Ceilings

CLIENT
CIB Banking Network

Specialized Fit-Out: Signage & Certified Fire Doors

High-altitude architectural branding and certified life-safety fire door installations.

★ Client: Ski Egypt / Mall of Egypt

ARCHITECTURAL BRANDING

Ski Area — Cladding & Precision Acrylic Signboards

Fabrication and specialized rope-access / scaffold installation of custom architectural cladding and high-luminosity acrylic illuminated signboards at Mall of Egypt. Engineered to endure cold-climate moisture, thermal cycling, and high-visibility requirements.

★ Life Safety & Civil Protection

SAFETY CERTIFIED

Heavy-Duty Fire-Rated Steel Doors Supply & Installation

Supply, precision framing, installation, and formal handover of heavy-duty commercial steel fire-rated doors (60/120 minutes) equipped with panic bars, hydraulic closers, and smoke seals in full compliance with Egyptian Civil Defense and NFPA regulations.

LOCATION

Mall of Egypt Ski Zone

MATERIALS

HARDWARE

Panic Hardware & Smoke Seals

Retail Finishing: **El Araby & Toshiba Showrooms**

Execution of premium retail finishes and heavy-traffic porcelain flooring for Egypt's leading electronics group.

★ Client: El Araby Group

COMMERCIAL RETAIL

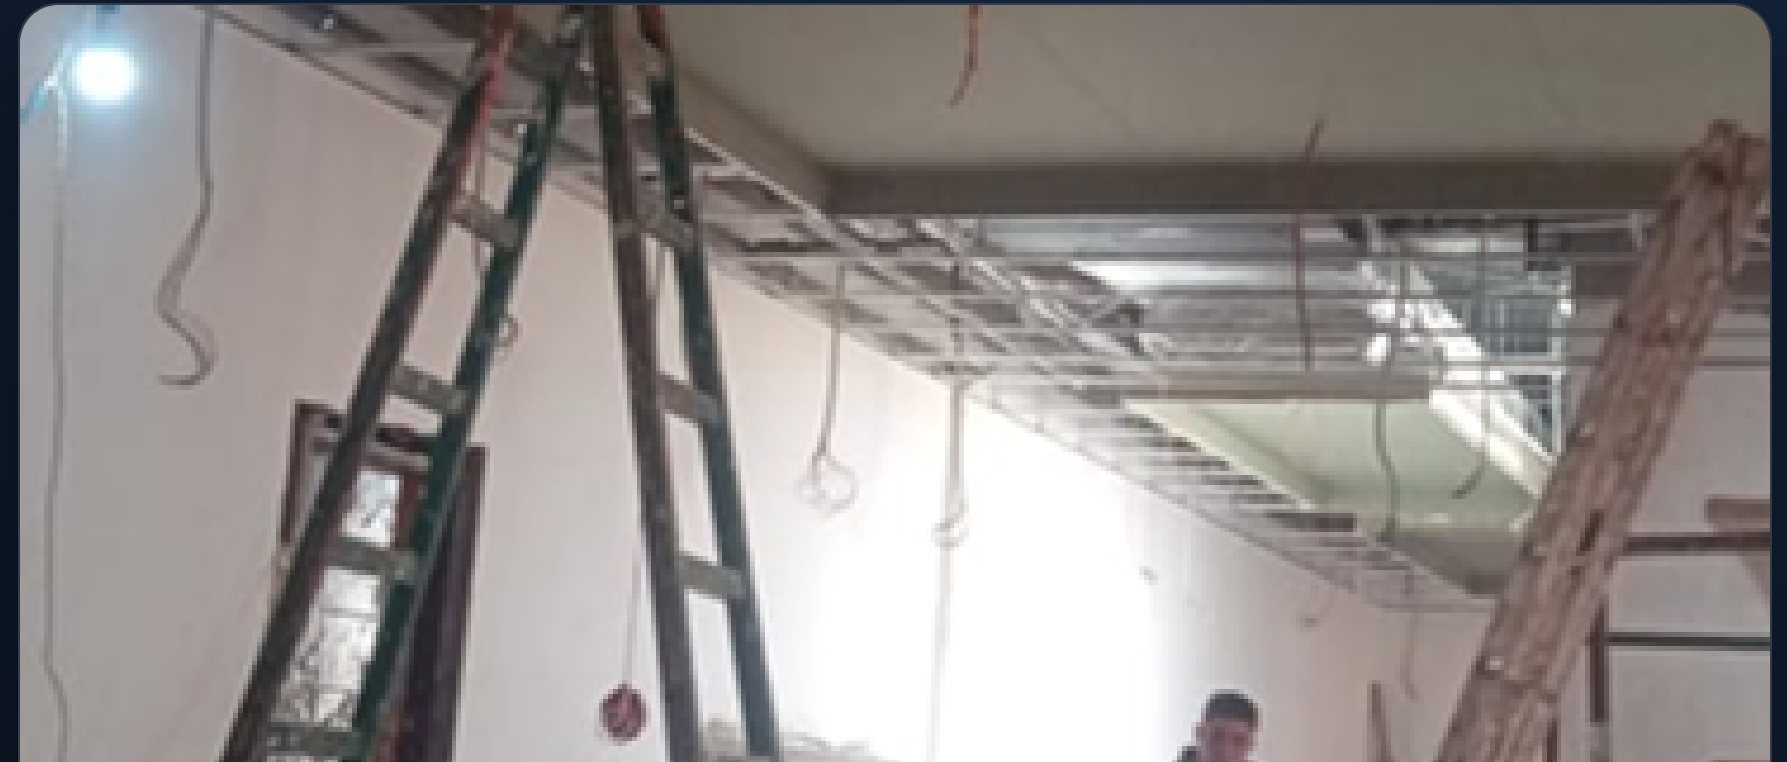

El Araby Group — Shoubra El-Masr Commercial Branch

Turnkey execution of architectural finishing and decorative gypsum board works for the El Araby showroom in Shoubra El-Masr. Scope encompassed complex suspended ceiling geometries, integrated spotlight coves, and high-durability wall finishes compliant with El Araby retail guidelines.

CLIENT
El Araby Group

LOCATION
Shoubra El-Masr, Cairo

SCOPE
Gypsum Board & Interior Finishes

★ Client: Toshiba Al Arabi Showroom

HIGH-TRAFFIC FLOORING

Toshiba Al Arabi Showroom — Agamy, Alexandria

Commercial porcelain flooring installation, wall finishing, and gypsum board suspended ceilings for the flagship Toshiba showroom in Agamy. Engineered to withstand intense daily foot traffic while presenting a flawless mirror-smooth surface reflecting brand quality.

LOCATION
Agamy, Alexandria

SCOPE
Porcelain Flooring & Gypsum Ceilings

STANDARD
Commercial Grade Leveling

Industrial Civil Works: **Sohag & Dabaa Wholesale Market**

Large-scale industrial exterior coatings and heavy-duty logistics interlock pavement infrastructure.

★ Client: Al Araby Group (Al-Kawamel)

3,800+ M² IN <30 DAYS

Industrial Factory Façade & Boundary Walls — Sohag

Completed over 3,800 m² of exterior factory façade painting in less than 30 days, alongside 800+ m² of security boundary wall coatings for Al Araby at Al-Kawamel industrial zone in Sohag. Deployed weather-resistant elastomeric coatings to withstand extreme Upper Egypt solar exposure.

FAÇADE AREA

3,800+ m² Painting

BOUNDARY WALL

800+ m² Perimeter Coating

SPEED

Delivered in < 30 Days

★ Municipal Infrastructure Project

HEAVY-DUTY PAVING

New Wholesale Market — Dabaa Pavement & Curbing

Heavy-duty interlocking pavement and concrete curbing works for the New Wholesale Market in Dabaa. Built to support continuous heavy freight truck loading, incorporating subgrade compaction, drainage falls, and rigorous load-bearing pavement tolerances.

LOCATION

New Wholesale Market, Dabaa

SCOPE

Interlock Paving & Concrete Curbs

LOAD RATING

Heavy Commercial Logistics

Precision Flooring: **Laser Porcelain & Pharmaceuticals**

Millimeter-level laser leveling systems and cleanroom-grade industrial concrete flooring.

★ **Commercial Complex Project**

1,700+ M² LASER-LEVELED

Porcelain Flooring Works via Laser Leveling Systems

Execution and completion of more than 1,700 m² of large-format porcelain flooring. Utilized optical laser leveling systems to eliminate lippage and ensure perfect joint alignment. Handed over with formal consultant certification on the first inspection.

FLOOR AREA
1,700+ m² Handed Over

TECHNOLOGY
Optical Laser Leveling

CONSULTANT
100% First-Time Handover

★ **Client: Chemipharm Pharmaceuticals**

PHARMACEUTICAL GRADE

Chemipharm Factory — Helicopter-Finished Flooring

170 m² of power-troweled helicopter-finished industrial concrete flooring executed in strict compliance with pharmaceutical manufacturing tolerances. Designed to resist chemical abrasion, prevent dusting, and ensure jointless sanitary maintenance.

CLIENT
Chemipharm Pharmaceuticals

SCOPE
Helicopter Power-Trowel Concrete

TOLERANCE
Sanitary Cleanroom Standards

Structural & Infrastructure: **Civil Formwork & Basements**

Heavy concrete formwork, steel reinforcement, and precision residential basement execution.

★ Joint Venture with Al-Fekry Company

HEAVY CONCRETE

Structural Formwork, Reinforcement & Excavation

Execution of heavy structural concrete works, engineered wooden and steel formwork, steel reinforcement tying, and mass excavation utilizing excavators and wheel loaders. Strictly monitored per Egyptian structural code guidelines.

PARTNER
Al-Fekry Holding

EQUIPMENT
Excavators, Loaders & Compactors

SCOPE
Concrete, Formwork & Reinforcement

★ Residential Villa Development

BASEMENT CONCRETE

Residential Villa Basement Works & Dowel Anchoring

Complete basement raft foundation casting, reinforced concrete retaining walls, chemical anchor dowel installations, and waterproofing barrier supervision for a luxury villa in Al-Shamaliyat, 6th of October City.

LOCATION
Al-Shamaliyat, 6th of October

SCOPE
Basement Slab, Walls & Dowels

QUALITY
Waterproof & Monolithic Casting

Steel Structures: **Palm Hills Developments**

Structural steel engineering, truss assembly, and monumental entrance gate fabrication.

★ Client: Palm Hills Developments

STRUCTURAL STEEL

Palm Hills Club — Gem Roof Steel Structure

Fabrication and crane-assisted erection of the complex architectural "Gem Roof" steel framework for the prestigious Palm Hills Club in 6th of October City. Included heavy structural trusses, spatial bracing, purlin alignment, and anti-corrosive industrial coatings.

★ Client: Palm Hills — New Capital

MONUMENTAL GATE

Palm Hills Gate — New Administrative Capital

Structural steel fabrication and on-site assembly for the monumental entrance gate of Palm Hills Developments in the New Administrative Capital. Built with millimeter joint tolerances to serve as a durable, iconic architectural threshold.

LOCATION

Palm Hills Club, 6th of October

TYPE

Architectural Gem Roof Trusses

CLIENT

Palm Hills Developments

Landmark Contracts: Hassan Allam & M Squared (31 West)

Tier-1 infrastructure partnerships covering specialized compact facilities, multi-site mobilization, and logistics infrastructure.

★ Client: Hassan Allam Holding

UNDER EXECUTION

Hassan Allam Holding — HBL Sanitary Facilities & Fit-Out

Active landmark contracting partnership with tier-1 conglomerate Hassan Allam Holding at East Port Said. Turnkey supply, precision fabrication, and installation of heavy-duty HBL compact laminate restroom cubicles, specialized sanitary partitions, and industrial kitchens complying with national infrastructure specifications.

★ Client: M Squared Developments | PM & Consultant: Raafat Miller (RMC)

2.75M EGP CONTRACT

31 West (31 Fadden) — Complete Site Mobilization & Facilities

Turnkey mobilization contract (IPC-02 Certified). Scope includes 138 m³ of 200 kg/m³ concrete slab (15 cm) with power-troweled helicopter smooth finish, 687 m² sandwich panel (40mm) warehouse & prayer hall with structural steel framing, parking shades, 10m³ water tanks, UPVC sewage, PPR water supply, electrical networks, and marble stairs. Supervised and approved under Raafat Miller Consulting (RMC) IR-CIVIL-0005.

CLIENT	LOCATION	SCOPE
Hassan Allam Holding	East Port Said Logistics Zone	HBL Compact Restrooms & Kitchens

CONSULTANT	CONTRACT VALUE	KEY QUANTITIES
Raafat Miller Consulting (RMC)	2,745,262 EGP (Certified)	138 m ³ Concrete • 687 m ² Panels

Design & Engineering: **Luxury Residential Villas**

Comprehensive architectural designs, structural calculations, and photorealistic 3D exterior renders.

★ Residential Architectural Portfolio

VILLA ARCHITECTURE

Architectural & Structural Design — 6th of October

Integrated architectural space planning, exterior modern façade concepts, structural concrete analysis, and photorealistic 3D visualization for private luxury villas in 6th of October City. Optimized for modern aesthetics and cost-efficient constructability.

★ Residential Architectural Portfolio

SHEIKH ZAYED VILLA

Contemporary Villa Concept — Sheikh Zayed

Contemporary architectural design incorporating cantilevered rooflines, composite stone-cladding accents, double-glazed window configurations, and structural concrete framing calculations engineered per the Egyptian Building Code.

Institutional Credentials & Engineering Certifications

Academic quality recognition and certified engineering competency endorsed by national professional bodies.

Certificate of Quality Assurance

Assessed and recognized for outstanding commitment to engineering excellence. Issued under academic advisors: Prof. Aliaa Abdelfatah, Prof. Lamiaa Zaky, Prof. Iman El-Mahlawy, and President Ahmed Abbas.

Supplies Sponsor Recognition

Recognized as the Official Supplies Sponsor for ESME Cairo Student Chapter (CUFE) / ESME ETRIX, acknowledging Progenesis Company's active partnership and material contribution to engineering projects.

Consulting Design Office Certification

Awarded to Eng. Mena Helmy Melad upon completing the 100-hour comprehensive Consulting Design Office engineering training course with General Grade: Excellent, certified by Radiance Group and the Egyptian Engineers Syndicate.

SAP 2000 Structural Analysis Certification

Awarded to Eng. Mena Helmy Melad upon completing the 32-hour advanced SAP 2000 V19 Structural Analysis & Design course with General Grade: Excellent, verifying competence in computer-aided structural design for multi-story and steel frameworks.
